11 Rings of Power

by Ebbe (graphics, sound, testing) & TheDog, (coding, testing)

INTRODUCTION

On a small volcanic island on another world, there is a struggle for power, take ownership of 6 Rings of Power to rule the island.

FEATURES

- **8** player Free For All, **FFA**, with 1 Capital & **5 random** high value territories
- **solo play** with the remaining factions using **Fast AI** or Hard AI for more considered play
- **AI friendly-ish**, no Objectives, no Technology phases, there is a Politics phase
- Random distribution of **40 Fate encounters**, over land & sea, these are very varied. Lurking **Wild-Things** in unpopulated areas
- **D8 dice**

- **Map size** 5000×5000px=**25Mpx**. **Unit size** 72×54px high, this is with 4K screens in mind
- It is a **small** map, with **165** land & sea locations & 13 terrain effects
- Turn sequence; Politics, Repairs, Combat Moves, Non-Combat Moves, Purchases, Placements, Resources
- Land Battles last up to **7** rounds, Sea Battles **5** rounds, Air Battles **3** rounds; this can be changed in Game Options
- Stacking limit is enforced to help the AI give a better game. Most units stack up to 5s per Territory/Sea Zone, except Skirmisher, Bow, Spear stack up to 10s.

- Sea Zones have ownership flags and are worth 1-3pu/turn. All land territories can be blockaded if adjacent to a Sea Zone. There are no convoy centers/route/zones. Most ships can Blockade an enemy Territory for 1pu and Submarines Blockade for 2pu.
- The above sea units can only Blockade up to the value of the PUs of adjacent enemy land territories

RESOURCES

- **PU** 
- **Fame** 
- **Construct** 
- **Mana** 
- **Diplomacy** 
- **Rings held** 

POLITICS, LEADERS & DIPLOMACY

- Each **Leader** unit (has a Crown top left) is the Political seat of Government & is in the Capital of a faction and produces **+1:Diplomacy** per turn.
- If lost another Leader can be bought for 1pu & 5 Fame and ready to be placed for succession.
- Politics phase is at the beginning of a faction turn and requires **0-2 Diplomacy** for a political action
- Politics has 5 relationships
  WAR → NEUTRAL → FRIENDLY → ALLIED (note HOSTILE is skipped when suing for peace, goes from WAR to NEUTRAL)
  WAR ← HOSTILE ← NEUTRAL ← FRIENDLY ← ALLIED

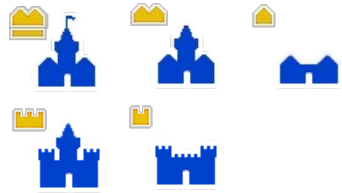

- HOSTILE is neutral relationship with skirmishes and tension on the border and is usually a prelude to WAR
  FRIENDLY relationship do not have **'Alliances Can Chain Together'** & do not **'Gives Back Original Territories'.** Can move through Friendly/Allied territory.
  ALLIED relationship do have **'Alliances Can Chain Together'** & do **'Gives Back Original Territories'.** Can move through Friendly/Allied territory.
  vanquished relationship is seen when a faction has lost all its land territories and has had all is units removed from play

There are **8 factions**, split into 2 loose alliances

- Forces of Light are Neutral to each other HighElf, WoodElf, Men & Dwarf these are searching for The Grail of Glory & rings
- Forces of Dark are Neutral to each other Demon, Undead, Orc & Goblin, these are searching for The Dark Crystal & rings

WAR HOSTILE FRIENDLY relationships last a minimum of 1 round
NEUTRAL relationships last a minimum of 2 rounds
ALLIED relationships last a minimum of 3 rounds

STACKING

- Stacking limit is enforced to help the AI give a better game.
- Most units stack up to **5s** per Sea Zone/Territory, except Skirmisher, Bow, Spear stack up to **10s**
- There are 3 different type of "*Factory*"; **Capital, City & Town**, limited to 1 per territory, these are well provisioned & give +1 land movement
- There are 2 different types of Defense "*Factory*"; **Fortress & Castle**, limited to 1 per territory, these are well provisioned & give +1 land movement
- Upkeep/maintenance, most units cost **-1 PU** to maintain per turn, except **Capital, City & Town, Fortress & Castle**

SEA ZONES

- Have ownership flag buoys and are worth **1-3pu**/turn to the owning faction
- All land territories can be blockaded if adjacent to a Sea Zone. There are no convoy centers/route/zones.
- Most sea units can Blockade an enemy Territory for **-1pu**
- Sea units can only Blockade up to the value of the PUs of adjacent enemy land territories

FACTIONS

Are split into loose sides,

Darkside:	Demon	Undead	Orcs	Goblin	All Darkside are Neutral to each other & Hostile to all Lightside
Lightside:	HighElf	WoodElf	Men	Dwarf	All Lightside are Neutral to each other & Hostile to all Darkside

Each faction has themed free reinforcements for 1-20 rounds, these units are what the faction is renowned for.

Faction	Nos	Themed Unit	PU+Resource each	PU cost
HighElf	2	Winged	8	16
WoodElf	3	Bow	5	15
Demon	1	Beast	1+15 mana	~16
Undead	3	Spear	6	18
Men	2	Cavalry	9	18
Dwarf	1	Castle	3+4 construct	~12
	1	Siege	4+1 construct	
Orcs	2	Veteran	8	16
Goblin	4	Skirmisher	4	16

Each AI controlled factions also has auto **purchased** reinforcements, these are from round 10,15,20 & 25 rounds.
The AI rarely buys these and they are;
Veteran, Cavalry, Galley, City ,Fortress, Beast (except Demon, as their theme is Beast, every turn)

Note: As these are auto purchased, with no TripleA test to see if the resource exists sometimes the units are bought for free or at reduced price.

WINNING

WIN CONDITIONS: 6 of the **11 Rings of Power**
As a single faction or part of an ALLIED alliance
Each faction has 1 ring of Power = x8
Dragon's Lair has = x1
Hidden Fate revealed as Lost/Missing = x2

IMPENDING WINNERS

When a single faction or part of an ALLIED alliance has **5 Rings of Power** a notification will pop up saying

*Commander, **Orcs** and their allies are close to victory what shall we do?*

When this happens AI factions that are;
HOSTILE to the Impending Winners will declare WAR
NEUTRAL to the Impending Winners will declare HOSTILE

TRACKING 11 Rings of Power & 16 Major power items by faction owner color.

11 Rings of Power	11 Rings of Power	16 items of Power (Major)
Below: Top Left of map: Dial shows the current faction owner by background colour of 11 **Rings of Power.** Below 8 Rings are owned by their faction. 3 are Grey, so not owned. These are in clock position 5, 7, 12 o'clock	Below: Resource tab: Ring column shows High-Elf own **9 Rings of Power** To help track the number of Rings of Power a faction has the Resource tab is **misused** to show the current number of Rings held by a faction. The Rings of Power column shows **as a minus** number the Rings held by a faction. Note: The Rings of Power column adds up to -11 Rings of Power, except at the beginning of the game, as the rings, **Lost** & **Missing** are not on the map, so it will add up to -9.	Below: Top Right of map: Dial shows the current faction owner by background colour of 16 **Major** items of power Below **Demons** own 1 Major power item, **Undead** own 1, and **WoodElf** owns 2, rest are not found/owned.
